FY '08 Wrap-Up, SBA and the Credit Crunch

Dear Lender:

Please accept our appreciation and thanks on behalf of Iowa small businesses for your efforts this Fiscal Year. In light of the disasters that have hit our state this year, as well as the economic challenges we've faced, we can be proud of what we've done together.

This past year, we provided 741 loans for \$188.8 million (not included in this number are the 3,502 disaster loans for \$236.4 million to homeowners, renters and businesses).

Though this represents a 9.8 percent decrease in numbers, it represents a 3.2 percent increase in dollars. Iowa is one of just a few states in which the dollar amount of SBA loans increased and we feel this is because our lending partners have continued to provide credit to start-up and existing small businesses who wish to pursue it.

While the tightening of credit hasn't (and may not) become as big an issue in Iowa as it has been in other states, in response to the financial crisis, the SBA is strongly encouraging its participating 7(a) lenders and Certified Development companies to work with business borrowers to provide them with the flexibility they need to keep their businesses running during these difficult economic times.

As access to credit and capital has tightened, many businesses face increased challenges in meeting their financial obligations. This is especially true of small businesses hit hard by the recent economic slowdown that are now unable to make payroll, or purchase essential inventory.

SBA is reminding participating lenders they have the authority on a case-by-case basis to extend temporary payment relief for qualifying borrowers with 7(a) and 504 loans who are struggling to make their payments.

"The SBA is here to help small businesses during these difficult economic times. We are encouraging our lending partners to follow suit by extending three-month payment deferments on their SBA guaranteed loans to qualified borrowers who need relief," said SBA Acting Administrator Sandy K. Baruah in a statement issued Monday, October 20th. "We recognize that small business owners are faced with challenging decisions right now. By providing three-month deferments to qualifying borrowers

who are struggling, our lending partners can help small business owners free up the capital they need to maintain their businesses."

If a deferment longer than three consecutive monthly payments is needed for a loan, borrowers can work directly with their lenders who in turn will work closely with the SBA to identify the best solution.

At the same time, the SBA is asking its lenders not to broadly call borrower loans due to changing financial variables, such as fluctuations in personal credit scores, declining collateral values, and reduced home equity, which are currently affected by the disruption in the financial markets. The SBA has issued a notice that will be distributed widely to its lenders and 120 field offices encouraging them to look at these cases individually and to work with individual borrowers in order to facilitate the longer term success of these small businesses.

If you have customers who are in need of deferment or other assistance, please contact the Des Moines District or Cedar Rapids Branch Office.

Sincerely

Joseph M. Folsom
District Director

2009 Midstates Development Conference Seeks Community Success Stories

The Midstates Community and Economic Development planning committee is seeking examples of successful development efforts in towns and cities in Iowa, Nebraska and South Dakota. The committee is looking for people to share their story of what their community did to revitalize and enhance the quality of life for individuals living in their town or city.

The 2009 conference theme will be “The Power of Partnerships” and will focus on such topics as going green, organic businesses, creative financing, innovative youth involvement, leadership, and entrepreneurship.

“If you know of a success story in your community, we want to hear from you,” said Iowa State University (ISU) Extension-Woodbury County Director Sherry McGill. “In the event your story is selected, you will be provided with an all expense paid trip to South Sioux City, NE, and have the opportunity to inspire others by telling your success story at the ninth annual Midstates Community and Economic Development Conference.” The 2009 conference will be held April 1 at the Marina Inn in South Sioux City, NE.

Participating communities will enhance this one-day program which incorporates successful strategies and

innovative ideas to advance community and rural development in the tri-state area.

If you have a story to tell, please submit a summary of your success story to the attention of Sherry McGill, Director, Iowa State University Extension-Woodbury County, 4301 Sergeant Road #213, Sioux City, IA 51106 or mcgills@iastate.edu.

The Midstates Community and Economic Development planning committee is a joint partnership of fifteen agencies and organizations in Iowa, Nebraska, and South Dakota.
