SBA Disaster Assistance Available to Private Non-Profit Organizations in New Hampshire

ATLANTA – The U.S. Small Business Administration announces that certain Private Non-Profit Organizations (PNPs) that do not provide critical services of a governmental nature may be eligible to apply for low interest rate disaster loans. These loans are available as a result of the Presidential disaster declaration for Public Assistance resulting from damages caused by severe storms, tornado and flooding that occurred on July 24, 2008.

PNPs located in Belknap, Carroll, Merrimack, Rockingham and Strafford counties are eligible for both Physical and Economic Injury Disaster Loans from the SBA. PNPs in the adjacent counties of Coos, Grafton, Hillsborough, Strafford and Sullivan in New Hampshire; Oxford and York in Maine; and Essex County in Massachusetts are eligible to apply only for SBA Economic Injury Disaster Loans. Examples of eligible non-critical PNP organizations include, but are not limited to, food kitchens, homeless shelters, museums, libraries, community centers, schools and colleges.

PNP organizations may borrow up to \$2 million to repair or replace damaged or destroyed real estate, machinery, equipment, inventory and other business assets. The SBA also offers mitigation loans to disaster victims up to 20 percent of the verified physical damage. These funds are designed to help borrowers pay for protective measures to minimize damages of the same kind in the future.

For PNP organizations of all sizes, the SBA offers Economic Injury Disaster Loans to help meet working capital needs, such as ongoing operating expenses. Economic Injury Disaster Loan assistance is available regardless of whether the business suffered any physical property damage.

Interest rates are as low as 4 percent with terms up to 30 years. Loan amounts and terms are set by the SBA and are based upon each applicant's financial condition.

“PNP organizations are urged to contact their County Emergency Managers to obtain information about local briefings. At the meeting, PNP representatives will provide information about their organization”, said Frank Skaggs, Director of SBA Field Operations Center East.

This information will be used to submit a “Request for Public Assistance” which FEMA uses to determine if the PNP provides an essential governmental service and meets the definition of a “critical facility”. Based upon that conclusion, FEMA will either refer the PNP to SBA for disaster loan assistance or possibly provide a “Public Assistance” reimbursement grant for eligible costs.
