SBA Disaster Loans Available in Missouri

ATLANTA - The U.S. Small Business Administration announces today that federal economic injury disaster loans are available to small businesses, small agricultural cooperatives and most private non-profit organizations of all sizes in Missouri as a result of excessive rainfall and flooding that occurred on April 1 through July 31, 2009.

These loans are available in the following counties: Cape Girardeau, Jefferson, Lewis, Lincoln, Marion, Mississippi, Perry, Pike, Ralls, Saint Charles, Saint Louis, Saint Louis City, Sainte Genevieve and Scott in Missouri.

“These counties are eligible because they are contiguous to one or more primary counties in the State of Illinois. The Small Business Administration recognizes that disasters do not usually stop at county or state lines. For that reason, counties adjacent to primary counties named in the declaration are included,” according to Frank Skaggs, Director of SBA’s Field Operations Center East.

“When the Secretary of Agriculture issues a disaster declaration to help farmers recover from damages and losses to crops, the Small Business Administration issues a declaration to assist small businesses and most private, non-profit organizations of all sizes affected by the same disaster,” said Skaggs.

Under this declaration, the SBA’s Economic Injury Disaster Loan program is available to farm-related and nonfarm-related small business concerns, small agricultural cooperatives and most private non-profit organizations of all sizes that suffered financial losses as a direct result of this disaster. Farmers and ranchers are not eligible to apply to SBA.

Eligible small businesses and non-profit organizations may qualify for loans up to \$2 million. These loans are available at a 4 percent interest rate with loan terms up to 30 years. The SBA determines eligibility based on the size of the applicant, type of activity and its financial resources. Loan amounts and terms are set by the SBA and are based on each applicant’s financial condition. Under this disaster declaration, the SBA cannot provide loans to agricultural producers.
