Low-interest Federal disaster loans are available to homeowners, renters, businesses of all sizes and private, non-profit organizations to repair or replace property damaged or destroyed by the disaster. So far, SBA has approved over \$38.3 million in low-interest disaster loans to Southern California residents and businesses hurt by the wildfires.

Disaster loans up to \$200,000 are available to homeowners to repair or replace their damaged or destroyed primary residence. Homeowners and renters are eligible for up to \$40,000 to repair or replace damaged or destroyed personal property.

Businesses of any size and private non-profit organizations may borrow up to \$1.5 million to repair or replace damaged or destroyed real estate, machinery and equipment, inventory, and other business assets. SBA can also lend additional funds to help homeowners and business owners with the cost of making improvements that protect, prevent or minimize the same type of disaster damage from occurring in the future. The deadline to return applications for property damage has been extended to **January 9, 2008**.

For small businesses only, SBA offers Economic Injury Disaster Loans (EIDLs) to help meet working capital needs caused by the disaster. EIDL assistance is available regardless of whether the business suffered any property damage. The deadline to return economic injury loan applications is **July 24, 2008**.
