Businesses of any size and private non-profit organizations may borrow up to \$2 million to repair or replace damaged or destroyed real estate, machinery and equipment, inventory, and other business assets. SBA can also lend additional funds to help homeowners and business owners with the cost of making improvements that protect, prevent or minimize the same type of disaster damage from occurring in the future.

For small businesses and most private, non-profit organizations of any size, SBA offers Economic Injury Disaster Loans (EIDLs) to help meet working capital needs caused by the disaster. EIDL assistance is available regardless of whether the business suffered any property damage.

Interest rates can be as low as 2.75 percent for homeowners and renters, 3 percent for private, non-profit organizations, and 4 percent for businesses, with terms up to 30 years. Loan amounts and terms are set by SBA and are based upon each applicant’s financial condition.
