Every day, the U.S. Small Business Administration and its nationwide network of partners help millions of potential and current small business owners start, grow and succeed.

Resources and programs targeting small businesses provide an advantage necessary to help small businesses effectively compete in the marketplace and strengthen the overall U.S. economy.

Visit SBA online at www.sba.gov for 24/7 access to small business news, information and training for entrepreneurs.

All SBA programs and services are provided on a nondiscriminatory basis.

Whether you're just starting a small business or expanding to take advantage of federal contracting opportunities, your business needs the right tools at the right time in order to succeed.

To learn more about programs that might be right for you, the SBA will be conducting a free seminar for small businesses explaining SBA procurement and certification programs including the 8(a) & HUBZone program. Small businesses will learn a step-by-step approach for becoming a general contractor or sub-contractor participating on government contracts.

Sign-up for this Government Contracting Seminar! Opening Doors to Federal Contracting
